There are additional vaccines and non-routine vaccines by disease in the U.S. Vaccines recommended by age and travel destination. Please consult your doctor or pharmacist.

did  
**you?**  
know

Vaccines have prevented countless cases of diseases and saved millions of lives. Infants, children, adolescents, teens and adults need different vaccinations, depending on their age, location, job, lifestyle, travel schedule, health conditions or previous vaccinations.<sup>1</sup>

Ask your doctor or  
pharmacist about your  
vaccine options today!
