

**DON'T TAKE
CHANCES WITH
THIER LIVES**
#GETVACCINATED

**IT'S ALWAYS BETTER
TO PREVENT A DISEASE
THAN TO TREAT IT
AFTER IT OCCURS.**

Vaccines can prevent infectious diseases that was once the cause of death or harmed many infants, children, and adults. Without vaccines, your child is at risk for getting seriously ill and suffering pain, disability, and even death from diseases like measles and whooping cough.

Visit CDC's website for the latest recommended child and adolescent Immunization Schedule for ages 18 years or younger.¹
